1) >

2) 655 as it is not a multiple of 50.

3) 863

4) True

5) 50

6) 134

7) Four hundred

8) 200

9) 40

10)   3

11)   40

12)   <u>30</u> is a multiple of 10 AND a multiple of 5. Therefore it should be in the <u>middle</u> of the Venn diagram (with 50) NOT JUST in the multiples of 10 circle.

13)   I would rather have five 50p coins (=£2.50) because it is more money OR I would rather have two £1 coins (=£2) because having more money is not important to me.

14)   Fifty-two

15)   Any number, using the digit cards, which is GREATER than 300 and ends in 3 or 9 (has 3 or 9 in the ones column).
eg 369, 493, 649, 943, 3649, 4963, 6349, 9463 BUT there are other numbers as well.
