

Pizza shape colouring activity

- 1) Colour in red all the shapes with a right angle and 4 vertices.
- 2) Colour in yellow all the remaining shapes with acute angles and at least one pair of parallel lines.
- 3) Colour in blue all the remaining shapes with only acute angles.
- 4) Colour in green all the remaining regular shapes with obtuse angles.
- 5) Colour in purple all the remaining irregular shapes with perpendicular lines.

6) Colour the remaining shape in black. What is the name of this shape?

Pentagon (regular)

7) Can you name any of the other shapes that you coloured in earlier?

Red - Rectangle and square

Yellow - Parallelogram and trapezium

Blue - Isosceles triangle and triangle

Green - Hexagon (regular)

Purple - Right-angled triangle and pentagon (irregular).
