

## Maths - Day 1

### LO: To order and compare numbers to 1,000,000

First, let's recap Roman numerals...

1. Complete the table.

Number	Roman Numerals
MD	
XXXIX	
MCXI	

**Today, you are going to practically make numbers to 1,000,000 and order them.**

1. Use a whole piece of paper to draw out the place value columns.
2. Find different objects to represent the below numbers. See an example directly below.
3. For each number that you make, create a list of the numbers from biggest to smallest.

The number is.... 211,213						
M	HTh	TTh	Th	H	T	o
						

8,281

198273

8021

94,311

1,291,291

24555

8,301,029

9,291,000

9823
